-------	----------	---------------------

159656	1	I love Loyola. I feel that living off-campus has taken away from my college experience. Commuters have been involved in the campus community but I am not one of the. I am in the process of deciding whether or not to transfer, I feel living on campus is a integral part of involvement in college.
159656	1	Loyola University-New Orleans consists of an outstanding and knowledgeable faculty. All my teachers have greatly contributed to my education.
159656	4	For the most part I like this school, I've been to other institutions before and I know what it like. This is definitely the best I've ever attended.
